About Company

Prospares WebTech, Unipessoal, Lda. is a Timorese-owned digital solutions and creative communications company specializing in graphic design, multimedia communication, and digital platform development.

Established in 2024, the company was created to respond to the increasing need for professional digital and visual communication services in Timor-Leste, particularly for organizations working in development programs, research dissemination, public engagement, and institutional visibility.

Prospares WebTech supports development partners, government institutions, non-government organizations, and local enterprises by translating complex technical information into clear, visually engaging, and culturally appropriate communication products.

The company combines professional design capability with strong local contextual knowledge, enabling the development of communication materials that resonate with diverse audiences across municipalities, administrative posts, and sucos. By integrating professional design standards with local insight, Prospares WebTech contributes to strengthening public awareness, stakeholder engagement, and knowledge sharing across development initiatives in Timor-Leste.

Through its work, Prospares WebTech aims to support organizations in communicating their programs effectively while ensuring that communication products are accessible, inclusive, and aligned with international development partner standards.

Welcome Message

Delivio Soares

Founder & CEO

As a Timorese entrepreneur, I am proud to lead a company committed to delivering innovative digital solutions and professional communication services that support organizations in Timor-Leste to communicate more effectively.

Development initiatives often involve complex research, policy discussions, and technical programs that must be communicated to diverse audiences including government institutions, development partners, community leaders, and the public. Effective visual communication plays an essential role in ensuring that information is accessible, engaging, and easy to understand.

Our team is particularly committed to supporting development partners, research institutions, and public organizations by providing communication materials that are professionally designed, culturally grounded, and aligned with international communication standards.

Vision & Mission

Vision

To contribute to a digitally empowered and connected Timor-Leste by providing innovative digital solutions and visual communication services that strengthen development programs, public engagement, and local entrepreneurship.

Mission

To support organizations through professional graphic design, multimedia communication, and digital platform development that enhances visibility, improves knowledge sharing, and strengthens engagement with diverse audiences.

Prosparaes WebTech is committed to ensuring that communication materials are clear, accessible, and inclusive, enabling development partners and institutions to communicate their initiatives effectively across Timor-Leste.

Our Services

1. Web Design & Development

Prospares WebTech designs and develops responsive and user-friendly websites that strengthen organizations' digital presence and improve accessibility of information.

Services include:

Key features:

- Custom website development
- Content management systems (CMS)
- Mobile-responsive design
- Website hosting and domain services
- Website maintenance and technical support
- Search engine optimization (SEO)

These digital platforms enable organizations to publish knowledge products, share program information, and strengthen engagement with stakeholders and the public.

2. Managed Digital Services

A website that is not maintained is a liability, and most business owners in Timor-Leste only find out when it is already too late. Our Managed Digital Services plans cover hosting, security patching, backups, content updates, domain renewals, and monthly performance reporting, converting your website from a completed project into a professionally managed digital asset. With Timor-Leste's submarine cable now commercially live and new e-commerce compliance obligations in effect, the difference between a managed and an unmanaged site has never been more consequential. Whether we built your site or someone else did, we can take it on, contact us for a free site health check.

Key Services:

- Hosting & Website Maintenance
- Security, Updates & Backups
- Content & E-commerce Management
- Domain & SSL Management
- Performance Monitoring & Reporting
- Technical Support & Site Health Checks

3. Brand Identity & Visual Design

Before a customer reads a single word about your business, they have already formed an impression. We build brands that make that impression count, from logo design and colour systems to brand guidelines, business stationery, and digital assets that carry your identity coherently across every platform. Whether you are launching something new or refreshing what you already have, we make sure your brand looks as credible and professional as the work behind it.

Key Services:

- Logo design and full brand identity systems
- Brand guidelines and visual standards documentation
- Business card, stationery, and branded collateral design
- Brand refresh and visual identity updates
- Digital assets for websites, apps, and social media

From first impression to lasting recognition, we design brands that mean something.

4. Publication & Content Design

The quality of your content says everything about the quality of your organization. We produce professionally written and designed publications, reports, policy briefs, brochures, toolkits, and digital communication materials, that are clear, accurate, and visually compelling. Our team handles everything from copywriting and editorial development to layout, typesetting, and final quality assurance. If your work deserves to be read, we make sure it gets read.

Key Features:

- Copywriting and editorial content development
- Publication layout and typesetting for reports and manuals
- Policy briefs, situational analyses, and knowledge products
- Social media content and digital communication materials
- Proofreading, editing, and quality assurance

Clear, accurate, and professionally presented content that represents you well.

5. Digital Marketing & Communication

Being online is not enough if no one can find you. We help businesses and organizations build visibility and drive engagement through targeted digital marketing strategies, including SEO, email campaigns, digital advertising, and online content production. Everything we do is designed to connect you with the right audience at the right moment. We do not just create content; we create content with a purpose.

Key Features:

- Social media strategy, content creation, and scheduling
- Digital communication campaigns and online advertising
- Email marketing campaigns and newsletter management
- Search engine optimization (SEO) and performance tracking
- Online content production for websites and digital platforms

Reach the right people, with the right message, at the right time.

6. Social Media Management

Your social media presence either builds your brand or undermines it; there is no neutral. We manage your accounts end to end, from content creation and scheduling to community engagement, paid campaigns, and monthly performance reporting. You stay informed while we keep your channels consistent, on-brand, and active. In today's market, showing up regularly and professionally is not optional, it is expected.

Key Features:

- Account setup, optimization, and profile management
- Content calendars and regular post scheduling
- Community management and audience engagement
- Monthly analytics reports and performance insights
- Paid social media advertising and boosted content

Consistent. On-brand. Engaging. We keep your social presence active and growing.

7. Event Digital Solutions

A well-run event deserves a digital presence to match. We build the online infrastructure that makes events run smoothly, dedicated event websites, digital invitations, RSVP systems, participant registration platforms, and real-time communication tools. Whether you are organizing a national conference, a government ceremony, or a community gathering, we make sure your participants are informed and your event is remembered for the right reasons.

Key Features:

- Event websites and participant information portals
- Digital invitations and RSVP management systems
- Guest, speaker, and participant registration platforms
- Event communication tools and real-time updates
- Post-event digital content, highlights, and documentation

Seamless event communication, from save-the-date to post-event wrap-up.

8. Research & Data Visualization

Data is only as useful as your ability to understand and communicate it. We help organizations transform raw data and research findings into clear, visually compelling outputs, infographics, dashboards, reports, and knowledge products, that inform decisions and demonstrate impact. From data cleaning and analysis support to final design and layout, we turn what you have into something your stakeholders will actually engage with.

Key Features:

- Data cleaning, analysis, and synthesis support
- Infographic and data visualization design
- Interactive dashboards and visual reporting tools
- Research report layout and knowledge product design
- Survey design and digital data collection support

Data tells a story. We help you tell it clearly.

9. AI-Powered Digital Solutions

Artificial intelligence is no longer a technology of the future, it is a practical tool that businesses can use right now to work faster, serve customers better, and operate more efficiently. We help organizations integrate AI into their digital workflows in ways that are grounded, affordable, and relevant to the Timorese context, from AI-assisted content creation and chatbot development to workflow automation and smart website features. The competitive advantage is available to you. We help you take it.

Key Features:

- AI-assisted content creation and copywriting tools
- Chatbot development and AI-powered customer engagement
- Workflow automation and process digitization
- AI-integrated website features and smart forms
- Digital strategy consulting for AI adoption and implementation

The future of digital is intelligent. We help you get there, practically and affordably.

Our Approach

Prosparaes WebTech follows a structured and collaborative workflow to ensure the delivery of high-quality communication products.

Consultation

Understanding client objectives, communication needs, and project scope.

Planning

Developing design concepts and communication strategies aligned with project goals.

Design & Development

Producing visually engaging communication materials and digital platforms.

Quality Assurance

Reviewing outputs to ensure accuracy, consistency, and alignment with client requirements and branding guidelines.

Delivery and Support

Delivering final outputs and providing technical support for updates and improvements.

This structured workflow enables the team to maintain high standards of quality while meeting tight project timelines.

Quality, Ethical Communication & Inclusive Design

Prospares WebTech is committed to producing communication materials that are professional, inclusive, and culturally appropriate. The company integrates the principles of Gender Equality, Disability, and Social Inclusion (GEDSI) to ensure that communication products are accessible, respectful, and relevant to diverse audiences across Timor-Leste.

Our communication approach prioritizes:

Inclusive representation of women, youth, and diverse communities

Accessible layouts and clear design for readability

Culturally appropriate imagery and messaging

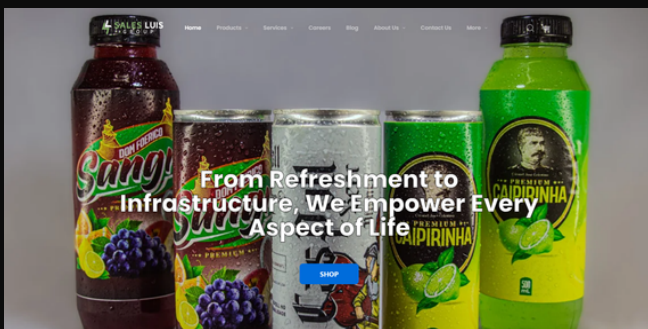

Responsible and ethical storytelling

This approach ensures that communication materials are aligned with international development partner standards and inclusive communication practices.
